---

Aquis Exchange would like to remind customers that the enhancements to the Auction on Demand (AoD) service and market data updates communicated in [Member Notice 2021\\_0013](#) will be rolled into the **Production environment** after the close of business on Friday 1<sup>st</sup> October.

AoD 2.0 behaviour will replace the current AoD behaviour on Aquis Exchange UK only. On Aquis Exchange UK, AoD 2.0 will only be available for UK and Swiss securities.

Aquis Exchange EU will continue to operate only the current AoD functionality, for EU securities.

The market data changes will apply to both Aquis Exchange UK and Aquis Exchange EU.

These changes are already available in the **Test environment**.

Members are reminded that if they wish to use AoD 2.0 features on Aquis Exchange UK, they will need to complete additional re-certification steps, as will new users of either version of the AoD.

The Aquis Exchange daily security file has already been updated to include a new column titled 'aod\_enabled', to show which securities are enabled for AoD trading.
