Aquis Exchange would like to remind Members, Vendors and market data recipients of the following changes in the **Production environment** in preparation for Brexit. These changes will be made after the close of business on Friday 15th March, effective from Monday 18th March 2019.

MD Replay UK/Swiss stocks (MD Split 1)	185.23.232.4	185.23.234.4

Action required:

All firms that receive market data from Aquis Exchange should ensure they configure their systems accordingly to target the correct replay IP addresses.

For firms who wish to test that they have successfully connected to the new replay IP addresses, Aquis will set the market data streams to heartbeat over the weekend. This will allow firms to connect with their replay credentials and request a replay of one sequence number.
